Let's Make the World Green

17th JUNE 2022

World day to Combat

Desertification and Drought

“Rising up from drought together”

The annual Desertification and Drought Day has three objectives.

- * To promote public awareness about desertification and drought.
- * Let people know that desertification and drought can be effectively tackled, that solutions are possible, and that key tools to this aim lay in strengthened community participation and cooperation at all levels.
- * To strengthen implementation of the United Nations Convention to Combat Desertification in countries experiencing serious drought and/or desertification, particularly in Africa.
